Event Summary

The TARC team presented the TARC 2025 concepts to staff at Seven Counties - a social service organization that offers a full range of mental and behavioral health services, substance use treatment, and intellectual and developmental disabilities services in a seven-county region. Discussion focused on how Seven Counties can best weigh in to ensure that the needs of their clients who use transit can be part of the considerations - Including paratransit users. The Seven Counties team also asked questions about whether fare raises could be part of the solution and whether the government could play a bigger role in supporting operations.
